Effective January 1, 2024

Building Permit Fees

Fees listed below are HST (Harmonized Sales Tax) exempt unless “plus HST” is indicated. Applicable taxes will be added at time of purchase.

The minimum fee for all permits is \$143.25 - HST exempt.

Rules for Determining Permit Fees:

- Gross floor area of the proposed work is to be measured to the outer face of exterior walls (excluding residential attached garages) and to the centre line of party walls, firewalls, or demising walls.
- In the case of interior finishes, alterations or renovations, area of proposed work is the actual space receiving the work, e.g. tenant suite.
- Mechanical penthouses and floors, mezzanines, lofts, habitable attics, and interior balconies are to be included in all floor area calculations.
- Except for interconnected floor spaces, no deductions are made for openings within the floor area (e.g. stairs, elevators, escalators, shafts, etc.).
- Unfinished basements for single detached dwellings, semi-detached dwellings and townhouses are not included in the floor area.
- Where there is no floor or walls, the gross floor area shall be the greatest horizontal area of the structure (birds eye view)
- Where Demolition of partitions or alterations to existing ceilings are part of an alteration or renovation Permit, no additional charge is applicable.
- Corridors, lobbies, washrooms, lounges, etc. are to be included and classified according to the major occupancy for the floor area on which they are located.
- The occupancy categories in this Schedule correspond with the major occupancy classifications in the Ontario Building Code. For multiple occupancy floor areas, the Permit fees for each of the applicable occupancy categories may be used, except where an occupancy category is less than 10% of the floor area.
